“Social unrest, conflicts, increasing frauds and scams, bankruptcy, increasing global warming and pollution etc are some of the common problems which are faced in today’s society. The focus is more on Profit and Wealth maximization at the expense of social harmony. It is time not only for corporate people but for all of us to wake up and start thinking on those lines what our ancient scriptures have taught us about practice of righteousness in our actions without expecting undue advantages in the form of benefits”, explained Dr Joshi.
