6. KARGIL VIJAY DIWAS

Kargil Vijay Diwas, named after the successful Operation Vijay, is celebrated in India on 26 July. On this date in 1999, India successfully took command of the high outposts which had been lost to Pakistan.

The intension of visit is to realize and understand NCC Cadets about the real heroes of our country. To create awareness among NCC cadets to take up the defense service as career and to have real patriotic feeling in them.

The cadets of an **Air wing NCC** of the Alva's Institute of Engineering And Technology, Moodbidri affiliated to No. 06 KAR AIR SQN NCC, Mangalore, celebrated **Kargil Vijay Diwas** with Indian Coast Guard Officers and Personnel at ICGS Amartya on 30 Jul 2019. Total of 29 cadets, 11 First year students (Aspirants of NCC), 01 Flt Cdr and 01 PI staff took part in this program.

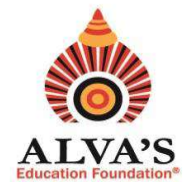

During visit to **ICGS Amartya**, Cadets were briefed by the Deputy Commander Sathya Prakash about the operations of ICG. He is the chief in charge of Amartya Ship. He is also an Ex-NCC cadet. He explained the structure of ship Amartya, also explained about the functioning of controls and its operations, Bridge (the neck of the ship), CNR 91 the machine gun it operation and range of 4000mts, etc. He explained about modes of entry to join the Indian coast guard, career in Indian coast guard services.

7. TREE PLANTATION DRIVE

A Tree plantation drive, social activity was conducted by the cadets of Air Wing NCC/ Flt – B on 04 Aug 2019. The drive took place at Alva's Homeopathy Medical Garden, at Shobavana Camp, Mijar, Moodbidri. Total of 26 cadets and 37 NCC aspirants took part in the drive.

Flt Cdr of Flt – B had approached the forest department officer at Moodbidri to collect the sapling. Forest department had given the recommendation to collect the saplings from the Karkala forest department. Flt – B received 40 saplings of teak-wood plants from the forest department of Karkala.

The main aim of this drive was to spread and create awareness to protect the environment. We selected the empty places in the garden of Shobhavana campus to plant the saplings in a well-organized way. All 43 plant saplings were planted on this occasion. In order to restore the eco-balance of the afforestation, this tree plantation drive was taken with all seriousness. The tragedy is that we are bent upon cutting down the trees which were planted by our senior generations. It is very common sight that everyday numerous trees are cut down to satisfy the human needs and greed. The painful aspect of the picture is that none of us is ready to think of their replacement. Trees keep the stream of life running. Without trees, the atmosphere gives a barren look where there will be no sign of living organisms.

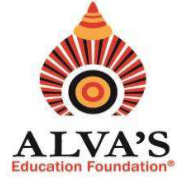

Keeping these things in mind we underwent tree plantation drive. All of them were highly enthusiastic to make it a big success. The cadets planted saplings and fenced them, watered the

plants. This drive was a huge success empowering the cadets with substantial knowledge of environment and plants and simultaneously enhancing their social skills.

Forest Department was so kind, they provided us saplings. We on would like to thank the forest department for generous support in giving the samplings for the betterment of ecosystem.

We would also like to thank Commanding Officer & Staff of 06 Kar Air Sqn NCC, Mangalore for continues guidance and support in conducting these drives.

We also thank our Principal and Management for providing the vehicle and other necessary facility to collect saplings and in conduction of tree plantation drive.

2. HAMS RADIO COMMUNICATION DURING DISASTER MANAGEMENT

On 24th September there was a guest talk on HAMS Radio communication during disaster management by the founder of Indian Institute of Hams Dr.Shankar Sathyapal VU2FI.

The program was organized by the Department of ECE, AIET in which **29 cadets Air wing Flt – B of 06 Kar Air Sqn NCC** took part in the talk, to understand how to setup communication link during disaster management. Dr. S Sathyapal is the managing trustee & Director (admin) & Officer Commanding (communications) Directorate of Civil Defense. He got two Rajiv Gandhi national awards and gold medal for his service and he was awarded the engineering excellence awards. INDIAN INSTITUTE OF HAMS (IIH) was established as a registered trust in 1993 for promoting amateur (HAM) radio in India.

What is amateur radio (HAM Radio)?

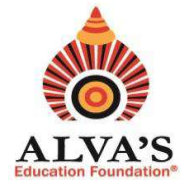

Amateur Radio (ham radio) is a popular hobby and service that brings people, electronics and communication together. People use **ham radio** to talk across town, around the world, or even into space, all without the Internet or cell phones.

Alva's Air Wing NCC (Flight – B)

Moodbidri - 574227

6 Kar AIR SQN NCC, Mangalore

HAM radio operators need to pass an examination for the license. The syllabus for the examination is **Electronics theory** i.e, basic electronics, Receivers and transmitters, Antennas and wireless transmission, wave propagation.

He various activate he carry out as follows,

- Field days to train Ham operations to setup and handle effective communications during disasters are conducted at regular intervals.
- Demonstrations, lectures, slide and video presentation programming are conducted at various educational institutional and social organizations as and when called for.
- Seminars, workshops and mock drills are conducted periodically.
- Fox Hunts (Radio direction finding) are organized almost every year.
- Quiz-on-air program.
- Electronics assembly workshops.

HAM Radio doesn't need internet to communicate, it just need a good line of sight. During disasters the internet may not work properly but the HAM radio can. The is a team called HAM action force in which the team members use HAM radios to communicate and help the people. All things are permitted to talk over the HAM radio

The term HAM is a person, who is deeply interested on radio communication, setting up their own private radio station in their home, conducts experiments and develops global experience. We can communicate people from all over the world by setting frequency bands like VHF, UHF, HF. There will be a specific code language to communicate the hams of different places and different languages. There will be certain call signs for different people and different countries. The call sign for :- Australia – VK; Japan – JA1, JA2, JA3; USA - AAA-ALZ, KAA-KZZ, NAA-NZZ, WAA-WZZ. He also briefed about Morse code. Morse code is a character encoding scheme used in telecommunication that encodes text characters as standardized sequences of two different signal durations called dots and dashes or dits and dahs. Morse code is named for **Samuel F. B. Morse**, an inventor of the telegraph.
