Irrespective to the type of research, purpose of the research should be clearly defined. It is universal truth that procedure, design of any research should be carefully planned to get good results that is important objective of any research. In this context Department of Chemistry, AIET organized a research methodology seminar on “Criteria of Good Research” on Saturday, 28/05/2016 in Engineering Seminar Hall .

Dr. Ramaprasad A. T., Department of Physics was the resource person of the seminar. Resource person explained that research procedure should be described in details to have repeatability for further advancement. He explained the qualities of good research should follow systematic, logical, empirical, replicable work, thereby building a strong base for any invention.

The seminar was conducted for faculties.
