ACADEMIC YEAR 2014-15

FEEDBACK ANALYSIS REPORT

Sl. No	Comments
1.	Conduct more courses on software testing, iOS courses
2.	Conduct certification course on software testing and automation
3.	Conduct more workshop
4.	Conduct more number of workshop on recent technology
5.	More workshop on certification course on java, iOS must be conducted
6.	Company specific training must be done on regular basis
7.	Add on courses must be conducted regularly to keep students updated to present trend
8.	Certification course/ Technical talks on recent industrial technique such as iOS, .NET must be conducted
9.	Syllabus must be updated according to current industrial concepts. Workshop on iOS must be conducted compulsorily
10.	Certification course on iOS, Android is must.
11.	Department support a lot but syllabus should be revised.
12.	Add new technology syllabus, department is good.
13.	Department is good enough, try to add some tools for learning modelling.
14.	Department encourages a lot to improve syllabus of VTU should be improvised.

ACADEMIC YEAR 2014-15

FEEDBACK ANALYSIS REPORT

15.	Department opened upon lot of opportunity to learn apart of outdated syllabus.
16.	Department had given lot of opportunity to learn, but require some placement training activities.
17.	Good
18.	Require pre placement training and add modelling tools for the curriculum.
19.	Add some software in digital library, which will be helpful for final year project.
20.	Curriculums to improve is good but add new subject to program.
21.	In some condition the practical is not enough and syllabus is not enough to solve real world problems.
22.	Good, Syllabus also complete within time and also to solve real world problem and improve all technical education.
23.	Certification courses has to be arranged based on the need and is carrier oriented. Prescribed books should be available in the library.
24.	The syllabus is updated very much based on the need so that the students are carrier oriented. The Prescribed books are not available in library in much number of books.
25.	Theory and Practical application is imbalanced, more practical classes will be useful to understand syllabus is not career oriented, what we learn and what we work are entirely different outcomes are not sufficient for carrier.
26.	Very good, quality of education is good and we have good opportunity to increase our knowledge.
27.	The syllabus content is good and based on the real-world applications. Syllabus content has helped in understanding society needs of technology.
28.	I agree that the syllabus is updated based on the need and is carrier oriented but the things is not regularly. It will be updated rarely.

ACADEMIC YEAR 2014-15

FEEDBACK ANALYSIS REPORT

29.	I disagree for contents in the syllabus because it is a drag and much of theory is not useful for us I feel. I strongly disagree as there are not much new topics like blockchain and AI because we need to be updated as possible.
30.	Some of the subjects in syllabus has no balance between application and theory course sometimes is irrelevant of the current trend. Social awareness is not actually related in all subjects.
31.	The syllabus doesnot have good balanced between theory and application. Aims and objectives of the syllabus are not clearly defined. There are no available referential material to related subjects.
32.	Need to update the syllabus. Should be more application.
33.	Number of books should be updated in library.
34.	Learnt and gained knowledge in practical view but need more real world example in theory explanation as well as understandable in theory.
35.	Complete only 5 units it will be easier to read.
36.	Sir complete only 5 important modules.
37.	Provide industrial visit each semester so that we will get exposure to site.
38.	Syllabus which is updated helps us to get more knowledge.
39.	Ensure students participation in learning process.
40.	Syllabus are defined well and clear
41.	Library facilities are good.
42.	Create social awareness.

ACADEMIC YEAR 2014-15

FEEDBACK ANALYSIS REPORT

43.	Good. Need more certification courses.
44.	It helps to build our carrier.
45.	Syllabus they teach are relevant to course and practical one.
46.	Social awareness is good.
47.	Activities really creates a social awareness.
48.	They will provide us with good library facility.
49.	Enrollment in various online courses should be encouraged.
50.	Latest technology development in industry should be included either in syllabus or it should be included through as certification course.
51.	Lack of practical content which may enhance placement
52.	Good academic syllabus prescribed.
53.	Content of the syllabus is good. I feel there should have been courses in communication field.
54.	Good academic syllabus prescribed.
55.	Content of the syllabus is good. I feel there should have been courses in communication field.
56.	Latest technology development in industry should be included either in syllabus or it should be included through as certification course.
57.	Lack of practical content which may enhance placement
