FEEDBACK ANALYSIS REPORT FOR THE ACADEMIC YEAR 2016-17

TABLE 2: STUDENTS COMMENT

Sl.No	Comments
1.	Not sufficient book in library, curriculum sometimes includes irrelevant information.
2.	Sufficient book are available in library.
3.	There are sufficient no. of books in library.
4.	Application level concepts should be included more in the syllabus.
5.	The syllabus provided is not at all related with practical area. The syllabus should be reduced so that students can focus on extra curriculum activities.
6.	Syllabus are completed on time. The syllabus are well defined and but some time it is not clear.
7.	Syllabus should be reduced for the students so that they can focus on the extra-curricular activities.
8.	It should have more advanced concepts as the recent trends in the technological world.
9.	They were knowing about what was daily happening and these were good books in the library and could access information but syllabus was not enough.
10.	Good. The student should get daily update out any notice from college not only for syllabus but also students should know general way to get the information
11.	Instead of more practices there are more theoretical subjects where the students will be motivated in world by experiment through particles.
12.	The subjects under the current curriculum is just theoretical. There is no practical exposure to these subjects at all. Hand-on experience on every technology must be provided.
13.	They provide us very good reference material.
14.	Very good. They have all facilities.
15.	Better to add more theory and application.
16.	Creates social awareness.
17.	Social awareness is good.
18.	They will provide good library facility.
19.	Good practical knowledge.
20.	Good. Good practical knowledge.
21.	Need to combine project activity and industrial assessment.

FEEDBACK ANALYSIS REPORT FOR THE ACADEMIC YEAR 2016-17

22.	Slow learners classes should be given more weightage.
23.	Students are trained with soft skills and skill development courses are to be conducted for placements.
24.	Need knowledge based certification courses to gad syllabus with placements.
25.	Overall a good syllabus need more extra co-circular activities.
26.	Internship in the college should be provided.
27.	Certification courses should be encouraged.
28.	Placement related courses should be implemented.
29.	Content of the syllabus should have been less. It too heavy for students.
30.	Online courses should be given weightage.
31.	Department support in all means knowledge development and Syllabus are outdated.
32.	Program in mechanical engineering department is good. Give more option in elective subject selection. Core branch subjects are good for fundamental knowledge and still outdated.
33.	Faculties are good, syllabus (Elective) should be revised.
34.	Curriculum developed in the department beyond the syllabus is satisfactory but elective subject should be revised.
35.	Syllabus must be upgraded to new technology.
36.	Add new elective subject with respect to new technology. Give open elective/interdisciplinary object options.
37.	Syllabus must be refined to new technology.
38.	Add new technology subject.
39.	Syllabus to be upgraded to industrial standard.
40.	Curriculum is good enough to learn fundamentals.
41.	No comments
42.	No comments
43.	No comments
44.	Faculties are too slow not completing all portions(all eight chapters)and all modules within the time
45.	No comments
46.	Very good opportunities and helped us very much all our events
47.	No comments

FEEDBACK ANALYSIS REPORT FOR THE ACADEMIC YEAR 2016-17

48.	No comments
49.	Syllabus is too lengthy. It is very difficult to study eight chapters.
50.	No comments
51.	Include internship program in final year and also compulsory industrial visit
52.	No comments
53.	Include more technical knowledge in the environmental subject
54.	Very good opportunities are provided but need some other support
55.	I think web programming and product development is better
56.	I think software testing is better and improve our skills
57.	Advanced Java programming is good
58.	Advanced java programming is better than all the above
59.	Please implement or give a certification courses on software testing to improve our software testing skills
60.	Organize certification courses on apple IOS training
61.	We want advanced Java programming certification course
62.	Web programming and product development, apple IOS training, software testing
63.	Implement the apple IOS training to know more about the apple IOS
64.	Apple IOS training, software testing and internship to be conducted on web development and advanced java programming
65.	We want web development internship
66.	We want a advanced java programming. We want a internship web development internship
