

## Report on seminar on “**Importance of IPR**”

Date and Venue: **20.02.2016, Engineering Seminar Hall.**

Resource Person: **Mr. Gururaj, Advocate.**

### **Objectives:**

- 1) To encourage creative and innovative research leading to the generation of new knowledge, ideas and inventions.
- 2) To provide faculty members, staff and students of VVCE assistance in assessing the patentability and commercial potential of their inventions.
- 3) Set your business apart from competitors
- 4) Be sold or licensed, providing an important revenue stream

“Importance of IPR” program was conducted by Computer Science and Engineering department on February 20<sup>th</sup> 2016 for second, third and final year students of Computer Science and Engineering students.

This program was conducted for generating awareness among students regarding what is IPR, Rules on how to protect patents, copyrights, trademarks, publications, books, projects and other forms of IPRs. This was mainly conducted to bridge a gap between industry and academics. This encouraged students to understand the role that intellectual property plays in fostering a creative and innovative culture. It also helped students to understand how to respond to infringements of rights including patent rights.
