In any technological area, drugs and pharmaceuticals match the description of globalization and need to have a strong IP system most closely. It can protect any product, design or process that meets certain specifications according to its originality, practicality, suitability, and utility. To give the awareness of patents AIET conducted one day FDP on Intellectual Property Rights, Patent-Importance, Procedure to Apply on 12/05/2017 in Engineering Seminar Hall.

The resource person for FDP was **Mr. Ajith Kumar**, Advocate he explained about the importance of Intellectual Property Rights and its importance to research, along with its objective and scope of the research. IPR is related to research publications. He explained how to apply for patent and different types of patents. Knowing about the patent act is the important need for any researcher before filing any patents.

The workshop was conducted for all AIET faculties.
