Protection of undisclosed information is least known to players of IPR and also least talked about, although it is perhaps the most important form of protection for industries, R&D institutions and other agencies dealing with IPR. To give the awareness of patents AIET conducted one day FDP on Role of Undisclosed Information in Intellectual Property on 20/07/2018 in Engineering Seminar Hall.

The resource person for FDP was **Mr. Ajith Kumar**, Advocate he explained about the undisclosed information, generally known as trade secret or confidential information, includes formula, pattern, compilation, programme, device, method, technique, or process. Protection of undisclosed information or trade secret is not really new to humanity; at every stage of development people have evolved methods to keep important information secret, commonly by restricting the knowledge to their family members.

The workshop was conducted for all AIET faculties.
