Report

FACULTY DEVELOPMENT PROGRAM

ON

“How to Write Project Proposals?”

Brief Report about the Program:

To write project proposals from minor to major requires some sort of skills. Having enough idea is not sufficient parameter for any research. Delivering the idea in perfect form is most important in present day scenario. In this background Department of Chemistry, AIET organized a seminar on “How to Write Project Proposals?” on 12-01-2018 in Engineering Seminar Hall. Dr. Basavaraju B. was the resource person of the seminar. Total numbers of 26 faculty members were present in the seminar.

Dr. Basavaraju is working as a Professor in Department of Chemistry, AIET, Moodbidri. He has 20 years of teaching experience. He is expertise in Polymer composite materials and has successfully completed few of the funded projects under VGST.

Dr. Basavaraju B. interacting with the audience about Project Proposals

Outcome of the Program: The seminar was conducted for faculties. After attending the session the audience could able to understand that writing a project proposal isn't rocket science, but it is a vital skill for being able to successfully pitch projects that you know will benefit your research or inventions. He explained about various funding agencies to get funds for the inventions.
