

**7.1.3 Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste.**

Alva's Institute of Engineering and Technology (AIET) has keen concern on solid waste disposal and its management. The color coded Green, Blue and Yellow separate bins are provided in the appropriate places of campus to collect degradable, non-degradable and E- wastes separately. The liquid waste generated in the campus includes effluents from Hostels and Academic blocks. The said effluent is chemically treated in the specially constructed tanks, and treated water is used for gardens. For the purpose of proper management of solid waste, food waste, E- waste and sludge, AIET has established MoUs with external agencies. The blank pages of discarded note books from the are re-bounded and reused
