Report on

one-day workshop on “The Role of Intellectual Property in Emerging Technologies”

VENUE: CSD Lab

DAte 11/12/2023

Resource Person: Mr. Jayanthkumar A Rathod, Associate Professor, CSD, AIET

The department of computer science and design organized a one day workshop on “” for the students of the 5th semester. This workshop focused primarily on building fundamental skills for connecting front-end and back-end systems. The resource person, Mr. Jayanthkumar, demonstrated various SQL commands for creating tables and explained the installation and significance of XAMPP and in developing mini-projects.

The main learning objectives of the refresher course are listed below.

1. To master the basics of SQL and construct queries using SQL.
2. To understand the principles of relational database design.
3. To develop database applications using front end and back end DBMS.
4. To understand the importance of XAMPP and MySQL.

The students benefited from this workshop and learned how to connect the front end and back end in developing a mini project. They also gained an understanding of the importance of importing various software tools like XAMPP, PHP and MySQL. This experience will help students enhance their skills and face placement drives with confidence.
